PEPPM offers technology products at low, contract-protected prices

PEPPM is a **cooperative purchasing program** for competitively bid technology products available for schools, libraries, colleges and universities, local and state government agencies, municipal authorities and other non-profit organizations. There is no membership fee or cost to access quotes or purchase products.

PEPPM has **product line and catalog contract awards on more than 1 million items** such as computers, copiers, furniture, peripherals, software, audio-visual, communication products and more.

PEPPM advertises and conducts sealed competitive bids – satisfying legal bid requirements – so there is no need for local quotes or bids.

Proposals are received and evaluated, then contracts are **awarded, monitored, audited and ready for use.**

Contracts are bid and awarded in Pennsylvania and California, and available for use in other states where piggybacking is permitted.

New products are added frequently and vary from state to state. Visit www.peppm.org to view up-to-date pricing and products.

When it's time to place an order, buyers fax orders to PEPPM, where they are reviewed to ensure purchase order accuracy, correct vendor pricing and product availability.

Schools and agencies that shop with PEPPM enjoy these **value-added services available exclusively through PEPPM:**

- complete bid protection with one-stop shopping;
- most-favored pricing;
- purchase order archiving;
- e-commerce enabled ordering;
- volume/spot pricing;
- quarterly reporting; and
- free shipping on orders over \$500.

Visit www.peppm.org to learn how you can start saving time and money with the PEPPM program.
